

Get Set for Life

Changes

We will explore how change can be positive but sometimes uncomfortable and develop strategies to cope with this. We will also learn about healthy habits, the impact of peer pressure and how to stay safe from risks.

Geography

Local Area

We are exploring our local area and will learn how to read and use maps, focusing on map symbols, keys, and simple grid references. As part of our fieldwork, we will go on a local walk to observe and identify buildings and landmarks around our school,

DT

Pop-Up books

We will explore a range of mechanisms such as levers, sliders, and folding techniques to bring our stories to life on the page, while developing skills in cutting, folding, and assembling paper components accurately.

English

This half term in English, we are reading *This Morning I Met a Whale* by Michael Morpurgo. Using this powerful story as inspiration, we will create newspaper articles and write a persuasive letter from the perspective of the main character.

Through these tasks, pupils are developing their skills in structuring non-fiction texts, using emotive language, rhetorical questions and persuasive techniques to express strong viewpoints effectively.

Maths

In Maths, we will be consolidating our knowledge and understanding of all areas of maths: place value, calculation, fractions, decimals and percentages., measure, ratio and proportion, angles, co-ordinates, shapes and their properties and statistics.

PE

OAA

We are focusing on Outdoor and Adventurous Activities (OAA), which will help us develop teamwork and problem-solving skills. We will participate in challenges such as orienteering, navigation, and group tasks that require cooperation and communication.

Computing

Text

We are exploring the program Microsoft Word and will learn how to navigate the software and use its features, with a focus on inserting and formatting tables.

YEAR 3 – SUMMER 2

RE

Dialogue Encounter Judaism and Encounter Islam

We are discovering how both religions express our understanding of God, how faith influences daily life, and the importance of key celebrations such as *Passover* and *Eid*.

Spanish

We will develop our understanding of numbers from 1 to 39 and learn how to name different sports. We will also learn how to give our opinion on a sport and say whether we like it or not.

Science

Forces and Magnets

We will investigate how different objects move on various surfaces and explore the effects of pushes and pulls. Students will carry out hands-on investigations to test the strength of magnets and learn how magnetic poles attract and repel. We'll also look at how magnets are used in everyday life and in technology.

Music

Clarinet

We will develop our understanding of different musical notes and work on playing notes on the clarinet with increased confidence and fluency.
