

## Get Set for Life

### Relationships

We will be looking at taking responsibility for our own behaviour as well as strategies to modify inappropriate behaviour. This topic will also include remembering people even if we don't see them and how to respond safely to adults we do not know.

## English

We will be reading the text 'Farther'. We will be working on features of instruction texts and using rhetorical questions, commas in a list as well as 'bossy verbs'. We will also be working hard on spelling words from the Year 3 / 4 word list and developing our cursive handwriting skills.

## Maths

There will be a large focus on fractions and decimals, including improper and equivalent fractions. We will also look at adding and subtracting fractions. Decimal work will include dividing 2-digits by ten and a hundred to learn knowledge of tenths and hundredths.

## PE

### Multi-skills

This will be delivered by an LSSP coach and will cover all of the skills needed to play many sports such as football, basketball, tennis and badminton.

## Computing

### Programming

We will develop our coding skills by learning to code and control sphero devices.

# YEAR 4 – SUMMER 1

## Geography

### Canals

We will learn to understand how and why canals were built and how they are different to rivers. We will learn how canals were used in the past and how they are used today and how the Industrial Revolution changed the landscape of Britain.

## DT

### Nutrition

We will be evaluating different types of pizza, looking at designing and making our own, looking into the nutritional values of the ingredients. There will also be a focus on health and safety and hygiene in and around the kitchen and cooking areas.

## RE

### Pentecost

We will be exploring the way we live our lives, the way we treat others, and how our words and actions show if we have an attitude of service.

### Reconciliation

We will explore how networks of friendships and relationships enable human beings to live together.

## Spanish

We will learn how to say a variety of sports and to give our opinions on these sports.

## Science

### Living Things and their Habitats

We will explore how living things can be grouped according to characteristics and carry out a minibeast hunt to learn about their habitats.

## Music

We will continue to work with Resonate Music Hub in order to further our clarinet skills whilst also further developing their singing skills with staff from the Archdiocese of Liverpool Singing Team.
