

## Get Set for Life

### Relationships

We will identify what loneliness is; explore different types of change and loss; explore the different reactions to grief; understand the difference between healthy and unhealthy boundaries; and will learn how restorative practice could be used to help resolve difficult situations.

## English

In preparation for our SATs this half term, we will be focusing on all areas of grammar and using this to help us write plenty of short burst writes such as poems and descriptions. We will also have targeted reading sessions focussing on answering SATs style questions.

## Maths

We will be consolidating our knowledge and understanding of all areas of maths: place value, calculation, fractions, decimals and percentages., measure, ratio and proportion, angles, co-ordinates, shapes and their properties and statistics.

## PE

### Athletics

This half term, we will be focusing on athletics and developing skills in sprinting, distance running, relay, jumping and throwing.

## History

### Transatlantic Slave Trade

We will discover the chronology of significant events during this time period and will examine and explain the reasons for, and results of, events and change.

# YEAR 6 – SUMMER 1

## Computing

### Programming

For this unit, we will develop previous coding skills and terminology as we create games in Scratch, which involve conditional statements being met.

## RE

### Serving – Witnesses

We will explore how the Holy Spirit enables people to witness the Easter message.

### Inter-Relating – Healing

We will explore people who are sick and the Sacrament of the Anointing of the Sick.

## Spanish

We will learn the names of different foods and drinks and learn the verbs to be able to apply these in a sentence.

## Science

### Evolution and Inheritance

We will recognise that living things have changed over time and that fossils provide information about these; recognise that living things produce offspring that vary; and identify how living things are adapted to environments and that adaptation may lead to evolution.

## Music

### Garageband

We will use Garageband to help us create our own band. We will understand how to create baselines and develop melodies that compliment this.

## Art

### Print - Andy Warhol

We will be developing our skills in the area of pop art and print. We will investigate different printing techniques and create our own final pieces of work.
